

Breast Milk Drive

August 15 from 10 a.m. to 3 p.m.
725 Welch Rd., Palo Alto, CA 94304

Do you have extra frozen milk that you can donate?

If you answered YES, you could support other babies in need.

To celebrate National Breastfeeding Month, we are hosting a milk drive.

All donated milk is pasteurized and distributed by the Mothers' Milk Bank in San Jose. This milk is used in 80% of NICUs in California and 11 other hospitals across the country.

You can support the milk drive in person or virtually!

Steps to donate

1. Prescreen by calling (877) 375-6645 (press 3 for Donor Services) or email donate@mothersmilk.org. Please mention that you are donating for the Lucile Packard Children's Hospital—Stanford Breast Milk Drive.
2. A donor packet will be mailed to you. Complete and return it as soon as possible.
3. Upon approval, the Mothers' Milk Bank will contact you to provide your **donor number, which you need to bring to the milk drive.**
 - If you prefer to mail your milk in and donate virtually, a cooler will be shipped to you by FedEx with instructions about how and where to send your milk. This service is paid for by Mothers' Milk Bank of San Jose.
4. Bring your frozen milk and donor number to 725 Welch Rd., Palo Alto, CA.

For more information, please email lactation@stanfordchildrens.org or call (650) 723-4118.
