

Inland Empire Breastfeeding Coalition presents:

# Monthly Virtual General Education

July 25th 2023

12:30-2:00 PM

## An Insider's Look at the Academy of Breastfeeding Medicine Protocols

with

Katherine R. Standish MD, MS

### Objectives:

- 1) Understand how clinical protocols are researched and written.
- 2) Apply sleep physiology to breastfeeding problems.
- 3) Understand theory of the spectrum of inflammatory conditions of the breast.
- 4) And many more clinical pearls from the ABM protocols!

We will dive into the 34 (and counting) ABM clinical protocols starting with an overview of the process of creating them. We will then dive into some of the more recently published protocols including #36 Mastitis Spectrum and #37 Physiological Infant Care. Finally, we will get a sneak peak at some upcoming major revisions to #21 Substance Use Disorder and a few fresh new protocols still on the draft table.

## Katherine R. Standish MD, MS

Dr. Standish a clinician and researcher in the Department of Family Medicine at Boston University and is co-founder of the Breastfeeding Equity Center at Boston Medical Center. Her research addresses breastfeeding services and interventions in marginalized and high-risk populations. She currently serves as Chair of the Protocol Committee of the Academy of Breastfeeding Medicine.
